Did you write your password down? Is it something you can easily remember? Let's get started!

This is the software you will use to manage all of the eBooks you check out from the library. You must have this installed on your computer. Visit <http://adobe.ly/deditions>, select '**Download**', choose Macintosh or Windows then follow the instructions to download and install the latest version of Adobe Digital Editions.

- Once Adobe Digital Editions is installed you will be asked to authorize your computer.
- Use the email address and password you created above to authorize your computer.
